

The Daily Courant.

Wednesday, November 3. 1708.

From the Paris Gazette, dated Nov. 3.

Rome, Oct. 6.

LAST Week after the Consistory in which all the Cardinals consented to the Pope's making Use of 500000 Crowns in Gold of the Treasure which Pope Sixtus V. had deposited in the Castle of St. Angelo, for the pressing Occasions of the holy See, the Count de Caunitz Auditor of the Rota for Germany, dispatch'd a Courier to Vienna and to the Marquis de Prie at Milan. He has inform'd the Emperour of this Resolution, which many were of Opinion the Pope would not easily have determin'd upon. There were but 2 Cardinals against it, and even those two Sign'd the Decree before they left the Consistory. The Pope having written a Brief to Cardinal Grimani, complaining of his Conduct at Naples, in causing the Edicts for Sequestering the Revenues of absent Ecclesiasticks to be put in Execution; which being contrary to the Immunities of the Church as well as against all Equity, was less excusable in a Person of his Rank; the Cardinal has return'd an Answer, and address'd it to his Holiness and to the Heads of the three Orders (or Classes) of Cardinals, in which he alleges in his own Justification, that those Edicts were publish'd before he came to Naples, and therefore he had no part in the making of them, but that he could not refuse to obey the Orders he had receiv'd to see them put in Execution. That during the Troubles of the Kingdom several Churches had been ruin'd or damag'd, and that the Number of the Poor had been very much multiplied. That those Revenues are now put to their primitive Use, namely the repairing Churches and relieving the Poor, which the Titular (or Non-Resident) Ecclesiasticks had very much neglected to do. In Conclusion, that 'twas not for the Emperour's Service that those Revenues should be sent out of the Kingdom to Persons who are in Interests opposite to his.

Venice, Oct. 13. The Advices from the Ferrareze import, that Count Marsigli perceiving it was not possible for him to make himself Master of Comacchio, without first taking the Tower of Magnavacca situate on the Sea-side, and that this could not be done but by a Siege in Form, had call'd off the Troops and Militia which block'd up those two Places, in order to employ them elsewhere. He afterwards went with Cardinal Casani to view Lagoscuro, where he gave order for building a Fort at the Head of the Bridge towards Ferrara, and for arming several Barks, among others two large ones with 6 Cannon each and a certain Number of Men; and they are to search all Vessels that shall pass down the Po. Count Conigseck had advanc'd to Bondeno, at the Mouth of the Panaro, with 400 Grenadiers and a Body of Horse, and commanded the Governour to open the Gates to him: But Collonel Medicis who commands there, made him as haughty an Answer; so that he was oblig'd to retire; and in Revenge for the Refusal, he caus'd the adjacent Villages to be plunder'd, without sparing the Churches or the Consecrated Place. The Count de Boneval who commands in Comacchio, had caus'd the Governour for the Pope who remain'd there to be put under Arrest, and summon'd the Inhabitants to take an Oath of Fidelity to the Emperour, whereupon the Bishop declar'd and protested that he and all his Clergy would rather leave the Place. A Detachment of Germans advancing towards the Ferrareze, defeated some of the Pope's Troops and carry'd off some Cattle. The Number of Imperialists was increas'd at Final di Modena by the Troops which come down from Piemont: The Regiments of Horse of Brainer, Martini, and Ebergeni, pass'd by Piacenza the 7th, marching towards the Modeneze: Part of the Troops of Brandenburg embark'd on the Po, were taking the same Route; and the Count de Thaurin who is to command the Army, was to follow them speedily. On the other Hand, Collonel Count Bentivoglio was gone to Stellata with some Com-

panies of Grenadiers and part of his Regiment. Other Troops were sent to Lagoscuro, Bondeno, and Fort Urbano. We have Advice, that the Emperour has conferr'd the Government of the Milanese on the Duke of Modena.

Milan, Oct. 27. The 21st Instant General Count Thaurin and General Baron Martini arriv'd here from Turin; and to Day proceeded on their Journey to the Ferrareze, whither the Imperial Troops continue to repair. The Marquis de Prie is gone from Bologna for Rome, by the Way of Florence. We shall soon learn whether the Court of Rome be dispos'd to accept that Minister's Propositions of Accommodation. The Count de Caravelli, Envoy of King Charles III, set out from hence the Night between the 25th and 26th, to follow the Marquis de Prie to Rome, there to act in Concert with him. In the Mean Time the following Terms of Accommodation are talk'd of here. 1. That the Imperialists quit their Pretensions to Comacchio. 2. That the Duke of Mantua renounce all Claim to the lower Romagna. 3. That as an Equivalent for that Renunciation the Pope give that Duke a certain Sum of Money. 4. That the Dutchies of Parma shall for the future be held in Fee of the Emperour and the King of Spain. 5. That the State of Milan be divided from the Ecclesiastical State by certain fix'd Boundaries. There are other Articles to the Advantage of the Imperial Court: But what Ground there is for talking of these, as the Articles on which the Accommodation between the Pope and the Emperour is like to be made, we know not.

Florence, Oct. 20. Yesterday about Noon the Marquis de Prie the Emperour's Plenipotentiary arriv'd here, and took up his Lodging in a publick Inn, excusing himself from lodging in the Palace of the Duke de Pallavicini which had been fitted up for him. 'Twas at first suppos'd he came hither to confer with our Duke; but some say he will proceed for Rome to Day or to Morrow, without seeing either the Duke, the hereditary Prince, or the Cardinal de Medicis, who are all in the Country.

From the Leiden Gazette, dated Nov. 9.

Letters from Geneva of the 29th of October advise, that the Duke of Savoy had caus'd Assurances to be given to the Republick of Genoa, that he is resolv'd to live in Peace with them; and that he will never forget the great Civilities they shew'd to the Dutchess his Consort and to the Dutchess-Dowager his Mother, when they retir'd to Genoa on Occasion of the last Siege of Turin.

From the Antwerp Courant, dated Nov. 6.

Toulon, Oct. 25. The fitting out here of 12 Men of War and 3 Frigates, which was suspended for some Weeks, is resum'd. 'Tis said this Squadron is design'd to support the Viceroy of Sicily; and that it will be augmented by 10 Gallies which are fitting out at Marseilles.

From the Antwerp Courant, dated Nov. 9.

Marseilles, Oct. 27. By Order from Court M. de Vauvray has sent to Sicily 6 Ships laden with Ammunition, with some Recruits for the Troops in that Kingdom. All the Gallies here are refitting, in Order to their putting to Sea the ensuing Spring.

From the Amsterdam Gazette, dated Nov. 9. &c.

Paris, Nov. 2. Letters from Spain confirm, that the Duke of Orleans, far from being able to take Winter-Quarters in Catalonia, has his Troops continually harass'd by the Enemy in the Country between the two Nogueras; so that his Royal Highness cannot leave his Army, but is forc'd to stay to observe the Motions of General Staremberg.

Frankfort, Nov. 4. The Elector of Hanover having receiv'd the News of the taking of Lifle, left to General Thungen the Care of Ordering the Troops of the Army of the Empire to their respective Winter Quarters, and this Evening pass'd through this Place Post for Hanover.

From the Paris Gazette, dated Nov. 3.

From the Camp at Sailloy, Oct. 28. The Marshal de Boufflers being unwilling to expose the Inhabitants of Lifle to be plunder'd and ruin'd, should the City be taken by Assault, caus'd a Parley to be beat the 22d in the Afternoon. The Capitulation was settled the

* He means principally the Cardinals del Giudice, Gualtieri, and Acquaviva; who, with divers other Prelates, are altogether entirely devoted to the two Crowns of France and Spain, notwithstanding they have Benefices of very considerable Yearly Income in the Kingdom of Naples.

By the short Account the Paris Gazette gives of this Letter of Cardinal Grimani's, it must be an excellent Piece.

the 23d in the Morning; and because he could have held out some Days longer, and have made the Enemy lose a great many Men, all he ask'd was granted him. Since which, besides the Garrison of the Citadel, 4600 Men have entered it, with all the General Officers, except M. de Tournesfort who led the Horse which were allow'd to march out to Doway, and M. Lee Lieutenant General who was wounded in the Head by a Piece of a Grenado.

From the Camp at Rouffelaer, Nov. 1. The 29th past, about 3 in the Afternoon, the Enemy in the Citadel of Lille began the Hostilities with the discharge of Five Pieces of Cannon, which they continu'd to fire the rest of the Evening, as they have done since with Cannon and small Shot, and have only kill'd 2 or 3 Burgers in the Town, without doing any manner of Damage to the Besiegers. The same Day 2 Batteries were begun against the Citadel for 25 Pieces of Cannon and another for 12 Mortars, which we are inform'd would be ready to fire this Morning. We have begun to contract the Lines of Circumvallation, and the Approaches being almost level'd, the Undertakers for repairing the Breaches are immediately to begin their Work. As soon as the Enemy had evacuated the Town, the hereditary Prince of Hesse march'd with 30 Squadrons and 10 Battallions into Artois, and encamp'd between la Bassée and Lens, in order to secure those Posts if it shall be thought necessary to keep them in the Winter, as likewise to prevent a Design the Enemy had form'd to carry all the Corn out of the open Country into their Garrisons.

From the Camp at Rouffelaer, November 3. The Detachment of our Army which was encamp'd at Kockelaer, mov'd towards Ipres the 1st Instant, and took Possession of the Posts in the Neighbourhood of that Place; that our Men who were appointed for that Service, might take away all the Corn and Forrage in those Quarters. The 1st the Duke of Vendome went Post from Ghent to Tournay, to be present at a great Council of War, at which M. de Chamillard assisted. Yesterday the Enemy detach'd 9 Battallions, some Dragoons, with a Convoy of Ammunition, and about 20 Cannon. Some think that Detachment is order'd towards Audenarde, which the Enemy threaten to bombard; others that they are to go to Ghent; whither the Duke of Vendome is to return after he has conferr'd with M. de Chamillard.

From the Amsterdam Courant, dated Nov. 10.

From the Camp at Rouffelaer, Nov. 5. This Morning 9 Squadrons under Brigadier Bridwits were sent towards La Bassée, to reinforce the Troops commanded by the hereditary Prince of Hesse. Men are kept hard at Work to strengthen La Bassée and Armentieres, as also some other small Places in Artois. Yesterday 7 Horse of every Squadron and 18 Foot of every Battallion were drawn out, and order'd to hold themselves in a Readyness to march on some Expedition: Our Troops which were sent towards Ipres, have brought to the Camp a great Quantity of Corn and Forrage from that Part of the Country.
